

**Masters Interactive Simulations** delivers powerful and truly unique “learning by doing” experiences.

Here, participants don’t just listen—they actively engage in environments that mirror real business challenges, turning concepts, skills, and approaches into lived experiences.

Through this process, they discover how their attitudes and behaviors shape outcomes, and identify practical ways to strengthen their capabilities.

Each program runs for approximately 4.5 hours and scales effortlessly—from small teams to hundreds of participants.

#### **Program Flow**

Every session begins with a lively, competitive, and carefully crafted scenario game. This is followed by a dynamic debrief that bridges the game with real-world business situations, highlights key learning points, and transforms insights into actionable methods.

Our portfolio spans diverse topics, designed to meet the evolving needs of skill development across industries.

Messages and learning points resonate with employees and partners at every level, giving each participant the chance to see how their decisions directly impact results and performance.

Because the principles emphasized are tied to boosting organizational performance, participants walk away with insights they can immediately apply in their roles.

**Masters Interactive Simulations offers unmatched expertise in “learning by doing”—a unique opportunity to elevate your organization’s performance.**

# GOLDEN CITY

## Golden City – Building the Future Today

### 🌟 Why Golden City?

True organizational success isn't about individuals—it's about systems, culture, and shared values. **Golden City** challenges your teams to:

- Adapt quickly to change
- Build and share a powerful vision
- Align today's decisions with tomorrow's success
- Collaborate across departments for collective impact

👉 Because the future is built on the choices we make today.

### ⚔️ The Scenario

Emperor Julius Caesar commands the creation of a new model city: Golden City. Each administrator takes charge of a region, with limited resources and shifting responsibilities.

**Their mission:**

- Make the city more valuable and livable
- Increase income sources for sustainable growth
- Pass on a stronger city to the next team

At the end, the Emperor honors the leader who creates the highest value with the governorship of Golden City.

### 📌 Core Takeaways

- Develop a shared vision
- Strengthen corporate culture & ownership
- Optimize resources and productivity
- Invest in the future, not just today
- Build cross-team collaboration and harmony
- Act decisively with strategic planning and rapid execution

## Who Should Join?

**Golden City** is designed for everyone in your organization.

- **Cross-department teams** unite in a shared experience.
- **Leaders & managers** sharpen strategic and tactical decision-making.
- **Newcomers** quickly embrace the company culture and teamwork spirit.
- **Experienced professionals** discover how their individual impact fuels overall performance.

 **Golden City** brings every voice to the table, turning diverse perspectives into collective success.

## Program Structure

Delivered by Masters Interactive Simulations, **Golden City** unfolds in two powerful stages:

1. **Dynamic Scenario** – A lively, fun, and competitive environment mirroring real-life challenges.
2. **Interactive Debrief** – Key learning points are shared, discussed, and connected to daily work practices.

 **Duration:** ~4.5 hours

 **Scale:** From dozens to hundreds of participants at once

## Key Benefits

- Strengthens team spirit
- Enhances strategic thinking
- Builds decision-making confidence
- Drives organizational performance
